Work Experience

AI Engineer Fellow, Anyone AI, Remote (Argentina / Remote) 09/2025 – Present

- Remote, project-based Machine Learning & AI fellowship focused on production-grade use cases and expert mentorship.
- Hands-on work in data pipelines, feature engineering, and end-to-end training/evaluation of ML and deep learning models (Python, PyTorch/TensorFlow).
- Practical use of Large Language Models (LLMs) and modern AI tooling to build real-world AI applications and prototypes.

Senior Full Stack Developer, Midinero, Guayaquil, Ecuador (Hybrid) 08/2024 – 10/2025 (1 year 2 months)

- Deployed and administered **SonarQube** (quality gates, coverage) to standardize code quality across microservices.
- Enabled **inter-cooperative transfers** end-to-end (integrations, compliance, settlement) — mission-critical and highly complex.
- Improved **microservice performance** and contained **log growth** (structured logging, rotation, CloudWatch), avoiding disk bloat.
- Built **event-driven notifications** for transaction updates using **AWS Lambda + SQS**.
- Implemented **password history** policy and enforcement to strengthen authentication.

Keywords: SonarQube, Interbank/Inter-cooperative Transfers, AWS Lambda, Amazon SQS, Spring Boot, Java, Python, PostgreSQL, Docker, CloudWatch, Logging, Event-driven Architecture, CI/CD.

Software Developer, Industrial Pesquera Santa Priscila, Guayaquil, Ecuador 02/2024 – 08/2024 (7 months)

- Developed and integrated key ERP web modules (Utilities & Loss Analysis, Inventory Management, Financial Balances, Internalization, Accounting Reports).
- Tech stack: **Laravel, Vue.js, PostgreSQL, Python.**

Software Engineer, TeduEmprende, Eloy Alfaro, Guayas, Ecuador 02/2023 - 12/2023 (11 months)

- Optimizing software development tasks on a temporary contract, focusing on enhancing operational efficiency and improving user experience.
- Stack: **Php, Laravel, Hostinger, MariaDB, React.js, Bootstrap, jQuery, JS, HTML5, CSS, Moodle y Pagosmedios.**

Full Stack Developer, Arkho, Chile (Remote) 01/2023 - 07/2023 (7 months)

- Spearheaded backend development, optimizing processing time by 40% and expanding client outreach by 25% through integrated notification services, utilizing **AWS, Kubernetes, and PostgreSQL.**
- Ensured 99% software reliability with **Unittest in Python** and specialized in various technologies including **Amazon S3, Docker, and React.js.**

Full-Stack Developer, Plataforma Gescolar, Guayas, Ecuador 07/2019 - 11/2022 (3 years 5 months)

- Developed and enhanced the User Interface, leading to a 15% increase in user satisfaction.
- Applied skills in **Amazon Web Services (AWS), React.js, and Python** to implement scalable solutions.
- Utilized **AWS Kubernetes** to orchestrate containerized applications, ensuring high availability and fault tolerance.
- Leveraged **Helm** for creating and managing Kubernetes application packages, streamlining deployment processes.
- Designed and deployed **CloudFormation templates** for clients, enabling automated CI/CD pipelines, enhancing delivery efficiency.

IT Tester in Application/Software Department, Huawei Latinoamérica, Guayaquil, Guayas, Ecuador (Internship Contract) 01/2021 - 08/2021 (8 months)

- Executed software testing and resolved 30+ critical bugs, enhancing system reliability, while providing key support to corporate clients and adapting solutions to meet evolving business needs.

Education

Telematic Engineer, ESPOL, Guayaquil, Ecuador 03/2021

- Degree in **Telematic Engineering (Software Engineering + Telecommunications)**
- Thesis: **Traceability of agricultural products using blockchain (Python, Flask, HTML/CSS/JS, Internet of Things (IoT)).**

Portfolio

All my personal projects are available on my portfolio website: <https://isaiasponce97.netlify.app/>

Certifications

- AWS Cloud Practitioner
- Google IT Automation with Python
- Google IT Support
- Automating Real-World Tasks with Python
- Configuration Management and the Cloud
